Made For
Connections

IT

Nahu supera il tradizionale concetto di spazio espositivo per dare vita a un luogo in cui il progetto diventa il centro della relazione.
Nahu Hub Milano nasce come spazio di incontro tra progettisti, aziende e competenze produttive: un ambiente aperto in cui idee, esigenze e visioni si confrontano per trasformarsi in soluzioni concrete.

Qui il dialogo non accompagna il progetto: ne diventa parte integrante.

EN

Nahu goes beyond the traditional idea of a showroom, creating a space where design becomes the very heart of every relationship.
Nahu Hub Milano was conceived as a meeting point for architects, designers, companies and manufacturing expertise: an open environment where ideas, requirements and visions come together and evolve into tangible solutions.

Here, dialogue does not simply accompany the design process. It becomes an essential part of it.

FR

Nahu dépasse le concept traditionnel de showroom pour créer un lieu où le projet devient le véritable cœur de la relation.
Nahu Hub Milano a été conçu comme un espace de rencontre entre architectes, designers, entreprises et compétences industrielles : un environnement ouvert où idées, besoins et visions se confrontent afin de se transformer en solutions concrètes.

Ici, le dialogue n'accompagne pas simplement le projet : il en devient une composante essentielle.

ES

Nahu redefine el concepto tradicional de espacio expositivo para dar vida a un espacio donde el proyecto se convierte en el verdadero centro de la relación.
Nahu Hub Milano nace como un espacio de encuentro entre arquitectos, diseñadores, empresas y experiencia productiva: un entorno abierto donde ideas, necesidades y visiones convergen para transformarse en soluciones concretas.

Aquí, el diálogo no solo acompaña al proyecto: forma parte esencial de él.

Our **meeting point**

IT

Ogni progetto nasce dal confronto.
Per questo Nahu Hub è stato pensato come uno spazio da vivere, non semplicemente da visitare.
Qui architetti, interior designer, contractor e clienti possono conoscere le collezioni, sperimentare materiali, valutare finiture, approfondire dettagli costruttivi e confrontarsi direttamente con chi sviluppa e produce il prodotto.

EN

Every project begins with an exchange of ideas.
For this reason, Nahu Hub was designed as a space to be experienced, rather than simply visited.
Here, architects, interior designers, contractors and clients can discover the collections, explore materials, assess finishes, examine construction details and engage directly with the people responsible for developing and manufacturing each product.

FR

Chaque projet naît de l’échange.
C’est pourquoi Nahu Hub a été imaginé comme un espace à vivre, et non simplement à visiter.
Architectes, architectes d’intérieur, contractants et clients peuvent y découvrir les collections, expérimenter les matériaux, évaluer les finitions, approfondir les détails de fabrication et dialoguer directement avec ceux qui conçoivent et fabriquent les produits.

ES

Todo proyecto nace del intercambio de ideas.
Por ello, Nahu Hub ha sido concebido como un espacio para vivirlo, y no simplemente para visitarlo.
Aquí, arquitectos, interioristas, contratistas y clientes pueden descubrir las colecciones, experimentar los materiales, evaluar los acabados, profundizar en los detalles constructivos y dialogar directamente con quienes desarrollan y fabrican cada producto.

Designed around your project

IT

Nell'idea di Hub il progetto è il vero attivatore del processo di relazione tra mercato e azienda. Nahu non si occupa semplicemente di sedute, ma di individuare le soluzioni più corrette per soddisfare le esigenze del cliente, che solo alla fine si traducono in prodotto.

FR

Au cœur du concept Hub, le projet constitue le véritable catalyseur de la relation entre le marché et l'entreprise. Nahu ne se contente pas simplement de fabriquer des sièges : l'entreprise identifie les solutions les plus adaptées pour répondre aux besoins spécifiques de chaque client, lesquels se traduisent ensuite par le produit le plus approprié.

EN

Within the Hub concept, the project itself becomes the true catalyst for the relationship between the market and the company. Nahu does not simply create seating. It develops the most appropriate solutions to meet each client's individual needs, which only at the final stage take shape as a finished product.

ES

En el concepto Hub, el proyecto es el verdadero motor de la relación entre el mercado y la empresa. Nahu no se limita a fabricar asientos; sino que identifica las soluciones más adecuadas para responder a las necesidades específicas de cada cliente, que solo al final se materializan en un producto.

ES

FR

Chaque modèle exprime la manière dont Nahu interprète l'univers du siège sous toutes ses formes. Il est le fruit d'un dialogue permanent qui transforme une idée de projet en solutions techniques et fonctionnelles, jusqu'à l'identification du modèle le plus adapté à chaque réalisation.

EN

Each model reflects the way Nahu interprets seating in all its forms.It is the result of an ongoing dialogue that transforms an initial design vision into technical and functional solutions, ultimately leading to the selection of the model best suited to each project.

IT

Ogni modello esprime il modo in cui Nahu interpreta la seduta in tutte le sue forme: il risultato di un dialogo costante che, dall'idea progettuale, conduce a soluzioni tecniche e funzionali fino all'individuazione del modello più adatto.

ES

Cada modelo expresa la forma en que Nahu interpreta el asiento en todas sus variantes. Es el resultado de un diálogo continuo que transforma una idea de diseño en soluciones técnicas y funcionales, hasta identificar el modelo que mejor responde a cada necesidad.
